

lego match it up

A fun matching activity using building blocks

What you need:

Building blocks in yellow, red, blue,
orange, and green

Print out of the enclosed sheets

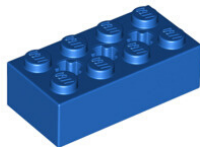

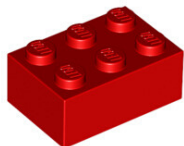

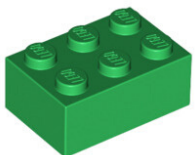

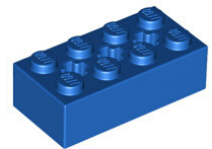

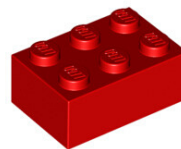

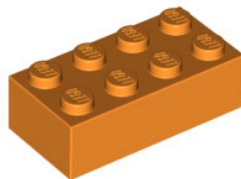

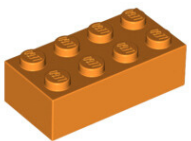

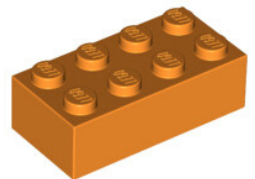

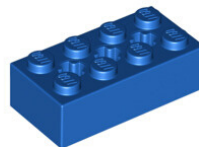

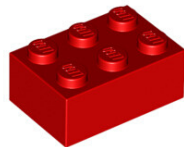

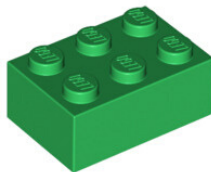

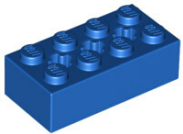

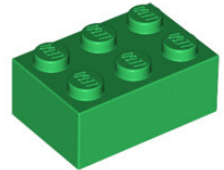

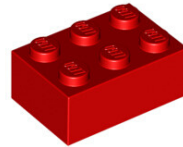

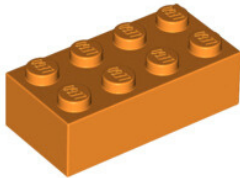

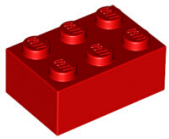

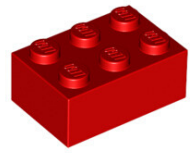

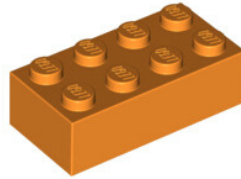

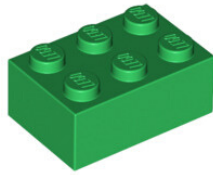

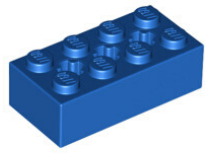

Use the key to match your block to the picture, letter,
number, color, or word on the page.

Expand the activity with these ideas:

- When you finish, count how many of each color blocks you used on each page. Which one has the most?
- Organize the blocks by color. Put all of the blocks that are the same color in a pile.
- On the number page, stack the number of blocks on each number.
- For letter match, say the letter sound as you match the brick. For words, say the word each time.
- Find other things in the house that are the same color as the bricks you used. Put all of those things in the same pile as the same colored brick.
- Find items in your house that start with the letters on each sheet.
